This STUNNING property was built by the prestigious Arlington-based custom home builder Karbyte Enterprises LLC to use as his own personal residence. No detail was overlooked when building this transitional craftsman home in one of the most pristine neighborhoods in Arlington on a quiet cul-de-sac. Spanning across three floors, it has an impressive 5,585 square feet including 5 bedrooms and 5.5 baths. The home is wrapped in beautiful stonework and Hardie siding encompassing the front porch and rear patio. Inside you will notice the difference in craftsmanship that sets this home apart; from the \$12K custom Cherry front door, to the diagonally installed red oak hardwood floors with custom cherry inlays, three piece crown molding throughout, to the high ceilings and millwork that are exemplified with natural lighting throughout. The living room and kitchen area are inviting and open with 10' coffered ceilings. An entertainer's and chef's dream, the kitchen boasts top of the line appliances including a Subzero fridge, Wolf range and hood, two new state of the art dishwashers, and a built in drawer microwave. Just bring your seats and projector, and dim the custom lighting to get a full theater experience. Next to the theater is the extra-large custom built steam room sauna including dual faucets, and a rain head shower. As-if that wasn't enough, at the end of the hall is a concrete encompassed room that can be used as a safe room or bunker with the simple addition of a steel door, which is currently used as a storage room or an in home gym.
